REASONS FOR ALLOWANCE

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 12/01/2003 has been entered.

The following is an examiner's statement of reasons for allowance: the Examiner has carefully reviewed and reconsidered all remaining issues.

It is agreed that Applicant need not demonstrate experimental results of biocidal activity against *B. anthraxis*. Upon reconsideration, *B. cereus* is the only model system for activity against *B. anthraxis*, and is thus reasonably predictive. The Examiner cannot therefore maintain the rejection under 35 U.S.C §112, first paragraph.

The Examiner has carefully reviewed all references and the submitted pages of the Rodriguez thesis. It is noted that the tagged epidermin lantibiotic of Kupke *et al.* was tagged at its amino terminal, rather than at its carboxyl terminal; and that a tagged sublancin 168 could not be produced by Rodriguez. Consideration of this information, in the Examiner's opinion lowers the combination of the Olsen patent with the PAIK references to "obvious to try". This is not sufficient legal criterion to sustain a rejection under 35 U.S.C. §103.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
